

Non Return Valve

CKV12/1/Ox

1/2"BSPP.F both ends

Orifice size: 12mm, Cv=2.75

Working Temperature -20' to 85'

Cracking pressure: 4-5 PSI

Material: BS 2874-CZ114

Maximum Working Pressure 320 Bar

Suitable for Oxygen Applications up to 195 Bar

Adiabatic compression test: WHA 03HO28-F-10

As per picture the recess (on both sides) requires 1/2" bonded seal that can be supplied by HIFraser. 100% tested to Maximum WP.

Cleaned for OXY service and double bagged
